“ *What can I say about my wife that everyone hasn't already heard me say my wife was more than my spouse she was my bestfriend, my comfort when when I felt worried or stressed she was my soulmate I know that a lot of people use that saying but me and her had more than a physical connection there were times when it felt like we really could read each other's minds I shouldn't say felt because she could read my mind one year for my Marine Crop birthday I had gotten home from work she had been saving money up i wasn't for sure why but i got home she had surprised me with a 45 pistol she was always full of surprises and she had a smile and laugh that could chase away the saddest of days you are the love of my life Becki to say you will be missed is a understatement I would give anything to be with you again
I love you forever and always*
