“ *The time Larry, Tom and I spent together after our 45th class reunion will always be treasured. I won't forget seeing him pull into our drive on his Harley. He so enjoyed riding his bikes. It was something he and Tom talked about a lot. We made sure he met what of our family he could and he told about members of his family. I felt like I knew Nadia and Leanne before he left . He loved and was so proud of you all! He got a kick out of telling me about Nadia holding the rattlesnake (he shot in the drive) for a picture and the process of tanning the skin. He enjoyed playing with my dogs and offered to take his favorite home to join his pack. He is a big dog so it would've been fun to listen to the guys try to figure that one out on the Harley. He loved the place in Wilder and enjoyed working with his hands building it up! He enjoyed working with his son James around there. He seemed to like it when I called him Farmer Leach. He was a man that could be respected. He was a caring, compassionate, Christian . I am proud of the man and friend he became. It is pleasant to think of him in heaven with his now perfect body, released from pain and able to ride again. We will miss you, Larry but are happy for you and your new glorious life!*
